Morning Oregonian.

VOL. XX.—NO. 3,882. PORTLAND, OREGON: TUESDAY, FEBRUARY 8, 1881. PRICE—TEN CENTS.

GENERAL NEWS.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

Dead.

NEW YORK, Feb. 3.—Francis A. Durivage, author and poet, is dead, aged sixty-seven.

The Fore ga Provision Trade.

NEW YORK, Feb. 4.—There is a marked increase since the first of the year in the foreign provision trade. Three thousand tons more have been shipped than in the month of January of last year from New York alone.

The Illinois Legislature Indorses the Grant Retiring Proposition.

SPRINGFIELD, Feb. 3.—The house this morning adopted the following resolution by a strict party vote without debate, the republicans ordering the previous question and all voting for the resolution:

Resolved, by the House of representatives, the senate concurring herein, in behalf of the people of the state of Illinois, that our senators in congress be instructed, and our representatives be requested, to use all honorable means to secure the passage of a suitable law for the relief of U. S. Grant with the rank of general; and we commend the action of our senators and representatives who have favored the passage of such a law.

Still no Result in Pennsylvania.

HARRISBURG, Pa., Feb. 3.—Sixteenth ballot, no change noted.

An Enormous Product.

CHICAGO, Feb. 3.—The official receipts of wheat at Duluth and Minneapolis from the line of the Northern Pacific railroad from September to December, inclusive, were 2,736,000 bushels, of which over 60 per cent. was the best quality grown, No. 1 hard.

Fatal Accident at Youngstown, Ohio.

Forthcoming Books.

NEW YORK, Feb. 7.—The following are among the new book notices: "Flirtations Camp," a California sporting romance, by Theodore S. Hittyake, will shortly appear.

J. J. A. McKnight, nephew of Brigham Young, promises a book on "Mormonism, Its Rise and Progress" which will be issued by Messrs. Trubner.

The Queen Hoyoger of Song.

Mrs. Schultz, formerly Madame Anna Bishop, who made her first appearance in public as a concert singer 44 years ago, and afterwards achieved success on the operatic stage, visiting California in 1857, with Mr. Bochsa, whom she afterwards married, sings to-night at Steinway hall to a third generation of New York auditors. The event draws more notice from the announcement that she sings with much power and sweetness, albeit she is 66 years of age.

Joaquin Miller's "Forty-Nine."

Joaquin Miller's newest play, called "Forty-Nine," will be produced by Mr. and Mrs. McKee Rankin at Haverly's Fourteenth street theater next September. It will be gotten up in grand style by Haverly, and is put on for a run, which will, in all probability, be secured for it. Miller has held the play in his possession for two or three years, and has lately rewrit en it. Rankin has been said to believe that his best course lay in the direction of the western drama, and he has consequently gone back to "Forty-Nine."

The Obelisk—Vanderbilt's Generosity.

NEW YORK, Feb. 7.—Wm. H. Vanderbilt gave his check to Commander Gorringe on Saturday for the total cost of the transfer of the Alexandria obelisk from the banks of the Nile to the banks of the Hudson. There are several conjectures as to the amount; but as the commander has not drawn his cash, and declines to disclose what he owes Vanderbilt as business, our curiosity is at sea. It is known that $75,000 was to be paid for taking up the monolith down in Alexandria and setting it up in this city, but it is said that the transit of the pedestal was not included, and that the cost $30,000. Gorringe's work in Central Park is finished with the exception of putting in the two metallic dogs that originally upheld the obelisk. These are in the hands of an engraver, who will carve the date of the transfer from Egypt to America. The commissioners of the park will make their own plans for the future surroundings of the obelisk. The huge stone is to be presented to the city on the 22d inst. in the Metropolitan Museum of Art by Secretary Evarts.

Railroad Accidents.

ST. PAUL, Feb. 2.—A serious accident occurred on the St. Paul, Minneapolis and Manitoba railroad train which left here for Fergus Falls this morning. The rear coach wheel broke, and the coach turning over twice, fell down an embankment. Seven passengers were more or less injured.

BOSTON, Feb. 7.—Three accidents occurred on the New York and New England railroad Saturday. Rolling stock suffered. No person hurt.

Church Burned at Utica.

UTICA, Feb. 7.—Rev. Dr. Hartley's Reformed church building, which cost $65,000 in 1860, was gutted by fire to-day. Insurance, $25,000.

Unusual Cold.

KEY PORT, N. Y., Feb. 4.—The bay is one mass of ice from this place to near Red Bank light, something unknown for years.

JAMESTOWN, N. Y., Feb. 4.—The mercury this morning indicated 25 to 30 below zero, and at Marysville and Frewsburg 5 below, the coldest for many years.

Right of Way Wanted.

ST. LOUIS, Feb. 4.—The Chester counsel has been asked for the right of way to the Texas line for the St. Louis and San Francisco road.

The Coal Movement.

NEW YORK, Feb. 5.—Arrivals of gold at the assay office from Europe for the week ending Friday $535,800, all foreign coin and bars; total arrivals from August 2, 1880, to February 4, 1881, $69'832,200, of which $5,886,000 was American coin, and $63,139,900 foreign coin and bars; arrivals for the same period in 1879-80 were $73,415,180; payments on this account by the assay office, $42,279 for the week, $62,993,155 since August 1.

Hostile Indians Captured.

SANTA FE, Feb. 4.—On Monday Capts. Baylor with 26 Texan Rangers, surprised a remnant of Victorio's band, 60 miles nort of Quitman, and killed six, captured three alive and secured 20 horses and mules. It is believed that they are the ones who have been committing depredations and murders for month past.

The "Times" Grant Fund.

CHICAGO, Feb. 4.—The Tribune's New York special says: George Jones was happy yesterday in the reception of a $5000 check for the Grant fund. He said that he could have raised twice the amount asked for. He expects to have all the contributions in within a week. It is known that MacKay, of California, Gould and Vanderbilt each subscribed $25,000 and Sidney Dillon $10,000.

Donation to Harvard.

BOSTON, Feb. 4.—A friend of Harvard has given $ 00,000 for a law school building.

New Railroad Organization.

NEW YORK, Feb. 5.—Publication was made here to-day that the New York, Chicago & St. Louis railroad company has been organized with a capital of $10,000,000, of which $13,000,000 have been taken by a syndicate, which has deposited 10 per cent of the subscription in cash. It is proposed to build a line from Cleveland to Chicago also to extend the line from Ft. Wayne Junction to St. Louis. The company has purchased fifty-six miles of the Wabash canal, which gives it a right of way in Ft. Wayne 260 feet broad. The line from Cleveland to Chicago will be completed this year and to St. Louis by July, 1882. Regarding the extension of the road eastward, nothing has been decided upon. The capitalists interested in this new project are prominently identified with the Erie & Western, Ohio Central and Pacific, Decatur & Evansville companies.

The N. P. R. R. Lands.

D. P. French, auditor of railroad accounts, maintains that the Northern Pacific railroad company has the right to mortgage its increase lands; that, according to the decision of the attorney-general, all lands granted and the property of the company unless exempted should by special act debts & mortgages.

BAD WEATHER IN THE WEST.

Great Snow Storm in Nebraska.

OMAHA, Feb. 6.—The heaviest snow storm that has visited Nebraska has been prevailing all day, snow having fallen to the depth of 6 or 8 inches on a level of packed sleet two or three inches deep, which fell yesterday. The snow is very heavy with water but further west is dryer and light, and is drifting some. It is snowing from Omaha to Cheyenne, and further west and the wind is blowing strong. Telegraphic communication is almost entirely cut off, the only eastern outlet being by way of Cheyenne, Denver and St. Louis. Cattlemen entertain great fears about cattle, which have already suffered a great deal.

Storm at Chicago.

CHICAGO, Feb. 7.—A sleet storm coming from the west has demoralized the wires in every direction, and for a brief time the city has been completely isolated. Men, however, are out in every direction, and everybody who can be secured is put to work restoring communication. There is great danger of flooding basements, as rain is now melting and raining, weather is expected.

CANADA.

Canadian State Ball.

OTTAWA, Feb. 2.—The grand state ball is in progress to-night at Rideau hall. The invited guests number 700, including the elite of the Dominion. Lord George Campbell and Lady Thornton and daughter are present.

WASHINGTON CITY.

Some Recommendations of Importance to Oregon.

David Davis to be Given the Chairmanship of the Senate Judiciary Committee—Etc., etc., etc.

WASHINGTON, Feb. 5.

The secretary of war has sent to the house of representatives a communication endorsing the estimate made by General Hazen, chief signal officer, for an appropriation of $16,000 for the construction of a telegraph line from Astoria to Tillamook Rock; $20,000 to construct a line from Port Townsend to Cape Flattery, and $20,000 to purchase the Cheyenne and Black Hills telegraph line.

The river and harbor bill items, direct surveys to be made with a view to the improvement of navigation of the Young's and Lewis and Clark's rivers, entering Young's bay, Oregon.

A Personal Opinion.

WASHINGTON, Feb. 4.—Morrison, of Illinois, a member of the ways and means committee, is of the opinion that if the senate amends the funding bill so as to provide for three and a half five-twenty bonds, the house will agree to it.

It Looks Like a Job.

The proposed establishment of coaling stations at the extremities of the Chignecto ship canal, arose out of a scheme for the sale of that strip of land to the government of the United States, and is so complicated as to cause it to be received with considerable suspicion by many members of congress. This strip was granted many years ago to a company of which an American was president, but it was claimed by the government which made the concession that the long since lapsed on account of non-compliance with the terms of concession. Despite of this claim there has been a proposition on foot for more than a year past to sell this strip to the government for some six hundred thousand dollars. It was in connection with this proposed sale that government ships were ordered early last season to the bay of Chignecto and to the gulf of Bolico, to establish and make a survey of those harbors with a view of the establishment of two coaling stations, one on the Pacific side of the isthmus and the other on the Caribbean sea. It is believed that the proposition to appropriate $200,000 for the establishment of these stations is but one step to secure the sale of this strip to the United States.

The Appropriation Bills.

All the regular appropriation bills have been reported by the house appropriation committees except the sundry civil appropriation bill. The former will be ready by Tuesday next.

Conkling Opposed to the Confirmation of Matthews.

WASHINGTON, Feb. 3.—Conkling has returned. He is pronounced in his opposition to Stanley Matthews, and says that Matthews will never occupy a seat on the supreme bench. He is thought at Conkling has enough power to make his words good.

Land Office Appointments.

WASHINGTON, Feb. 5.—Among the nominations sent to the senate to-day were Mark S. Blum, register of the land office at Pueblo, Colo.; Henry Dennison of Wisconsin, register of the land office at Florence, Arizona; Edwin S. Whittier, receiver of the land office at Evanston, Wyoming; and Wm. E. Somers, receiver of the land office at Boulder, Nev.

At the Point of Death.

Representative Page has gone to Albion, N. Y., on receipt of a telegram yesterday announcing the serious and perhaps fatal illness of his father.

Judge Davis and the Judiciary Committee.

It is to-day understood on good authority that in the expected event of a democratic organization of the next senate, the chairman of the judiciary committee will be given to Judge Davis, of Illinois, whose vote on the question of organization has greatly been considered somewhat doubtful. Three Democratic senators will be members of the next senate who are above Judge Davis in the present list of membership of the judiciary committee, and would therefore under the usage of promotion, be entitled to the chairmanship before the claims of the senator from Illinois would be considered. These are senators Bayard, Garland and Lamar; but all three of them have chairmanships that, it is said, they are entirely willing to retain, and thus leave the way open for Senator Davis to become chairman of the judiciary committee. Bayard prefers to remain at the head of the finance committee. Lamar is satisfied with railroads, and Garland with territories. It is believed that the proposed arrangement will be highly agreeable to Judge Davis, as he naturally prefers service on the judiciary committee to any other branch of the senatorial work.

A Personal Matter.

There was quite a scene in the house to-day owing to Davidson, of Florida, taking Bisbee to task for accusing him of getting elected by fraud. Davidson took occasion to attack the republican party fiercely and was called to order by Conger, Hoar and the Speaker. Bisbee made a spirited response, and the matter was dropped.

The Civil Service Committee.

Senator Pendleton has called a meeting of the civil service committee for to-morrow to consider a report which he has drawn up and which he desires the senate to act on this session.

The Funding Bill.

The finance committee of the senate have considered the last three sections of the funding bill; no decision reached.

The First Gun.

WASHINGTON, Feb. 3.—In a meeting of the committee on commerce to-day, the nomination of Rodney W. Davis as collector of customs at Buffalo was, on motion of Conkling laid over with a number of other nominations.

Silver for the Mints.

The treasury department to-day purchased 50,000 ounces of fine silver for delivery at the San Francisco and New Orleans mints.

Eaton's Canal Bill.

Senator Eaton, chairman of the foreign relations committee, is positive that the senate will pass his resolution condemning the construction of any inter-oceanic canal by foreign capitalists, and he said to-day that the passage of such a resolution would stop DeLesseps from getting ahead with his scheme.

SOUTH AMERICA.

The War in South America.

PANAMA, Feb. 25.—The dispatches to January 28th are exceedingly meagre. A few skirmishes are reported as favorable to the Peruvians. The battle of Verrugas seems to have been the most important of these in its results. 2,500 Chilians and 900 Peruvians being the losses respectively. The battle of San Bartolome is described as a formal combat. Four thousand Chilians attacked an advance post which was situated on an elevated plateau, defended by only 150 men. These resisted the attack for about an hour and a half, and were about retiring, when Pierola appeared at the head of a Peruvian divis on, which immediately occupied the position, and after a well contested fight, drove the Chilians from the field. The loss is not stated.

Rich Mining Strike in Chili.

NEW YORK, Feb. 5.—There is considerable excitement in Chili, near the town of Canete, on account of the large quantities of gold found by miners in the old abandoned gold mine known as the Lebu mines. Gold was found in nuggets, some of which have weighed four, five and six ounces. There have been instances of poor miners making hundreds and thousands of dollars in a few days. Fifteen hundred people are reported to be upon the spot. Upwards of fifteen hundred claims have been taken out, and a notary public has taken $85,000 in the shape of fees.

A DEADLY FOURPE

The Small pox in Dakota.

SIOUX CITY, Feb. 5.—For several weeks small-pox has been raging with great fatality in Jefferson, Union county, Dakota, a settlement distant from this city about two ve miles. A strict quarantine has been enforced, and the disease has not extended beyond the settlement. There have been nine deaths, thirty-two of which proved fatal; sixty cases are now under treatment. Whole families have been swept away by the disease. In many instances the dead have been left unburied for days through fear or inability to obtain help to inter them. At present two nurses are in charge of the infected district, and it is believed that the disease is wearing and will be wholly confined to its present bounds.

Smallpox in New York.

NEW YORK, Feb. 2.—Small pox is increasing and calls forth the best efforts of the health department to take charge of the unusual number of cases. The present accommodations are insufficient.

Smallpox in the Jefferson Co., Ill., Poor House.

CHICAGO, Feb. 4.—The small pox has appeared at the county poor house at Jefferson. Seventeen cases were quarantined in a temporary hospital on Tuesday. Yesterday there were eleven more cases reported there. The inmates number 130. The insane asylum adjoins.

MEXICO.

Attempt to Murder.

CITY OF MEXICO, Jan. 26 (via Havana).—Joseph Brennan, a contractor on the Tehuantepec interoceanic railroad, was shot and seriously wounded to-day. The assassin fired from an ambuscade.

Cold Weather in Mexico.

Severely cold weather has prevailed throughout the republic. Some persons were frozen to death at Pueblo and Matamoras.

Dayton Chronicle: Owing to the large amounts claimed for the right of way, the new canal project has been abandoned for the present. As Mr. Whitemen was acting for Gen. Tannatt, he did not feel authorized to take any deeds or steps, the opposition being much greater than was anticipated at the time of the survey.

Last Tuesday morning the thermometer stood unusually high at Seattle, being 10 inches above the freezing point reached for years.

TARIFF LEGISLATION BLOCKADED.

The Hurd Resolution Indefinitely Postponed.

WASHINGTON, Feb. 7.—The ways and means committee to-day reconsidered their vote to report the Hurd tariff resolution adversely, and then postponed the matter until a month from to-day by a vote of 6 to 4. Hurd from the sub-committee, reported a substitute for Representative Kelley's bill, abolishing the discriminating tariff on goods west of the Cape of Good Hope. The substitute contains a provision as affecting simply goods coming through the Nottingham. Morrison moved that the committee report the original bill as a substitute to this substitute; lost by 5 to 6. Frye then moved that Representative Kelley be instructed to report to the house a substitute. This was agreed to by the sub-committee and they asked suspension on of the rules in order to put the bill upon its passage. It was carried without division.

What Postponement Means.

The postponement of Hurd's tariff resolutions today by the ways and means committee for four weeks of course means their indefinite postponement and an announcement that there will be no tariff legislation this session.

RELIEF FOR THE JEANNETTE

Proposed by Secretary Goff and Endorsed by the President—A Search Ship Offered.

WASHINGTON, Feb. 3.—The secretary of the navy to-day received advices from New Bedford, Mass., containing assurance that Captain Buddington is in favor of purchasing a steam whaler to be dispatched by the United States government in search of the Arctic explorer steamer Jeannette, that a suitable whaler, now at San Francisco, can be purchased. The price demanded could not be ascertained, it being deemed inadvisable to make the figures public until the estimates and preparations which are being prepared in the navy department for transmission to congress are completed.

A Message Forthcoming.

The president will to-morrow transmit a message to congress in regard to relief of the Jeannette. Secretary Goff has concluded that a steam whaler fully adapted to the work can be purchased for $30,000, or the Wachusett can be fitted up for $25,000 and refitted for foreign service at the same cost. The president will submit the alternative to congress with the reasons of Secretary Goff.

IRISH FOLLOWMENT

The Windsor Professor Chosen Governor General to Canadian Officials.

HALIFAX, Feb. 3.—Professor Pind, in a letter to the governor general, says that he first pointed out the falsified figures on the fishery master at Sir Leonard Tilley, who was then 1878 a privy council lor. He appeared in the witness box. Tilley would never forget the service prof. Pind had rendered in exposing the fraud. He is at Windsor, fishery agent for New Brunswick, who gave him a written acknowledgment for the service rendered, and explained on some of the figures, "Cooked by God!" These frauds were conceived in 1877. Tilley attested them and is responsible for them although he may not have known of the fraud. But as to the fact that they are fraudulent there is no earthly doubt.

BY ATLANTIC CABLE.

Arrest of Davitt Under Arrest.

DUBLIN, Feb. 3.—Michael Davitt was arrested today under his ticket of leave. Immediately after Davitt was arrested for a report in advance of the police, Egan, Brennan and Dillon of the land league went to the case and sought to have an interview with him, but the police informed them that he was not there. Detectives transporting Davitt, drove to Kingstown where he prisoner was placed on board the mail steamer for London. Egan, Brennan and others went to Kingston to see him before the steamer sailed. The police, however, refused them admittance and would allow no one to see the prisoner except a doctor, who advised him to go to the hospital as soon as he arrived in prison, as he was threatened with lung trouble. Egan and Brennan subsequently succeeded in obtaining an interview with Davitt, who was in good spirits. He expects to go before a magistrate in Bow street to-day (Friday) and thence be conveyed to the convict prison at Dartmoor.

On reaching the Bow street police office, was at once taken before the chief magistrate. The proceedings were private, but it is officially announced that Davitt was ordered to finish the remainder of his sentence of penal servitude. He was removed from Bow street under escort.

Davitt's Health.

LONDON, Feb. 7.—It is understood that a careful examination of Davitt will be made in consequence of statements with regard to his health.

Grand Convention of the Land League—Effects of the Coercion Bill.

The land league issued a circular to the branches last night, calling on them to send delegates to the convention. Secretary Brennan says that there are between 800 and 900 branches which will return about 2000 delegates to Dublin. It is curious to notice that while all this has been progressing in London a party in parliament and in the Irish press have been unceasingly at work in saying the coercion bill cannot be put in force. The suspension was first moved, but upon an order of the house being declared for division, all the home rulers refused to leave the house. The motion to suspend Parnell was ultimately carried by an affirmative vote of 45, seven home rulers also voting. Parnell, declaring to-night was forcibly removed by the sergeant-at-arms, the home rulers waving their hats as he passed.

Edmund then persisted in speaking, and was named by the speaker. It appears likely that all the home rulers will pursue themselves to be suspended successively. Sheridan was also suspended by a vote of 40 to 5. The home rule members again refused to vote. The speaker had their names, numbering 27, taken down, and a motion to suspend them was carried by 43 ayes to 5 noes. They individually refused to leave the house only by yielding to superior force. They were removed singly by the sergeant-at-arms. The force used was the sergeant-at-arms taking the arm of each suspended member. The conduct of the home rulers is in accordance with a resolution taken at a meeting this afternoon to adopt the course recommended by A. M. Sullivan, that the Irish members should remain in their seats instead of going into the lobbies and refusing to vote. They were watched by the police. Forster's office, the speaker's and Gladstone's private residence were guarded by police. The lobby was cleared a half an early hour and strangers were not allowed to enter.

Beaconsfield Shows his Teeth.

One hundred and fifty conservatives including the whole of the late cabinet except Lord Cairns, met with Beaconsfield to-day to consider Gladstone's resolution. It is understood that it is agreed to give unbridled support to Northcote's amendment. Beaconsfield pointed out the great decline in the credit, energy and dignity of the house of commons since the retirement of his cabinet, and said that it was necessary for the conservatives to do all in their power to restore the dignity of the commons by supporting the government so far as they are able in putting down obstruction in the house.

THE TELEGRAPH CONSOLIDATION.

The Western Union Assumes Control of All the Lines.

NEW YORK, Feb. 3.—To-day the Western Union, American and Atlantic & Pacific Telegraph Cos. were consolidated, and as a late hour this evening the Western Union took possession of the offices of the other two companies. The sudden ratification of the telegram consolidation was apparently for the purpose of forestalling any action of the state legislature on the bill passed by the assembly yesterday. Judge Barrett refused Rufus Hatch's application for an injunction against the consolidation. The judge said that though the court had labored with the injunction question for the past two months, he was not prepared to say that the consolidation was illegal. The Western Union Telegraph Co. and the Atlantic & Pacific Telegraph Co., David E. Bates has been duly appointed agent of the company and general manager of the lines, offices and operations of the properties and rights attached over by the American Union Telegraph Co., and Albert B. Chandler has been appointed the agent of the company and general manager of the properties and rights of the Atlantic and Pacific Telegraph Co., under the notice of consolidation of management. All officers and employees of either of the said companies, will be retained in the service of the company until further noticed, and all business and revenues accruing in operating said lines will be reported and turned over to the company. Sidney Norman Green, president.

The Transfer Completed.

NEW YORK, Feb. 8.—The stockholders of the various telegraph companies consolidated for the purpose of the consolidation agreement, and the Western Union stockholders will be subsequently called for their ratification. The officers of the Western Union and President Chandler of the Atlantic and Pacific, have formally turned over to President Green of the Western Union, all documents in their possession belonging to their old companies. It is stated to-night that Eckert becomes vice president and managing director of the Western Union.

Forty stand of arms, for the use of the Ancon Grays, reached Dayton last month, and the boys are delighted. They again are the proud possessors of the latest pattern, being 45 calibre—the government standard for rifles.

WRINKLES! FACTS.

It is a pain ful sight to see young ladies their teens with wrinkles and premature old faces anywhere it is run to common, and to any one who observes the tendency of the times this season very apparent. Owing to flaming advertisements and our fashions, in which are used the names of eminent physicians and chemists, the unsuspecting and credulous have been induced to use some of the so-called beautifiers, all of which are known to be positively injurious and misused for any length of time will destroy the complexion so that it will be next to impossible to restore it. Mothers should be very careful to see that their daughters do not use these preparations but ask for and obtain Sharon's Harmless Yoseri to Face Powder, the only harmless beautifier. THE PONCA INDIANS.

Message from the President with Reference to Them.

Report of the Commission—What the Future Indian Policy shall be, Etc., Etc.

WASHINGTON, Feb. 2.—In the house to-day a message was received from the president transmitting the report of the commissioners appointed to ascertain the facts relative to the removal of the Ponca tribe of Indians to the Indian territory, and to inquire into its present condition, and also the declaration made by their chiefs of the tribe, setting forth the compensation they will accept for their lands and for the wrongs done the tribe by removal to the Indian territory. After quoting from the reports of the secretary of the interior, Agent Howard and the senate committee upon the subject, the president says:

The report of the commission appointed by him and the testimony taken by them and very little to what was already contained in the official reports of the secretary of the interior and the report of the senate committee, to change the conclusion reached by those bodies in their report, that the Indians that the government of the United States regards their rights as equal to those with none of citizenship. The time has come when the policy of the government of the United States, as rapidly as practicable, upon the same footing with other governments in inhabitants of this country. I do not undertake to apportion the blame for the injustice done the Poncas. Whether the executive of congress or the public is chiefly in fault is not now a question of practical importance. As the executive is the time the wrong was consummated, I am deeply grieved at the thought of the responsibility for that wrong attached to me to make it my special duty and earnest desire to do all I can to give the Indian people that measure of redress which is required alike by justice and by humanity.

RUTHER CHILD B. HAYES.

How Some Good Boston Men were Used.

NEW YORK, Feb. 3.—A Herald Washington special confirms the statement that the loss on philanthropists in the Ponca case have been unwilling tools of designing men who have been aiming to secure the Ponca reservation in Dakota, making the Indians restless now to secure a good title. It says: "The philanthropists will believe as much investigation in this direction as they have done to the supposed wrongs of the Poncas, they may find out something not a credit to their credit.

CHINESE NATURALIZATION.

The National Republican Points out an Important Defect in the New Treaties.

WASHINGTON, Feb. 4.—The National Republican began editorially discussing the Chinese immigration treaty this week. The amendments submitted to the senate in 1868, by Gen. Schofield, for the express purpose of excluding Chinese from naturalization, it says, were intended to give effect to the declaration that the most favored nation clause is applicable not only to rights and privileges accorded to subjects of the most favored nation by treaty stipulations, but also to the rights and privileges accorded to them by our laws. It therefore contends that the amendment of 1868 was indispensable to prevent Chinese naturalization, under the Burlingame treaty, and is equally necessary now, and continues as follows: "Surely, that a treaty could not confer its right, but that it could only negative our government to apply it to laws to meet the case; but treaties are equal to laws, and a treaty agreement to extend a given law to subjects of a nation, might suffice to confer the desired privilege. We should be sorry indeed to see any failure of the treaty. It is of great value and was negotiated with much skill and ingenuity, but it would be far better that it be lost than our courts be thrown open to the naturalization of the Chinese, who have no attachment in what is to us the highest link of republican liberty, and who will never sympathize with our political principles or intellectual standards. We hope the amendment of 1868 will be made to the pending treaties.

The editorial has attracted a good deal of attention, and in connection with the similar position taken by a large party in the California legislature, toward which the Pacific coast democratic senators seem to be strongly inclined, is likely to exert a considerable influence upon the senate's decision of the question as to what time the treaty should or should not be ratified without amendment.

THE REVOLT IN EGYPT.

Revolt of the Royal Guards—They Carry their Point.

NEW YORK, Feb. 3.—A cable dispatch to the Herald from Paris of the 2d, says: A revolt of the khedive's guard has taken place and has been thus far successful, for the insurgents have gained their point, which is the removal of the obnoxious war minister Osman Pasha Refki. Yesterday three colonels were arrested and tried by a court martial of which Osman Pasha was president. During the session of the court a regiment of the guard of the khedive's palace revolted under the eyes of the khedive and marched to the war office and forcibly released the three colonels. The war minister escaped by a window. Gen. Stone and the other members of the court were deprived of their swords and hustled about. Osman Pasha received a bayonet wound. The revolting regiment, commanded by the released officers, returned to the palace where they were reinforced by a second regiment. The insurgents told the khedive that they had no grievance against him but that he was in a position directly opposed to the wishes of the people. Everything is quiet.

Matrimonial.

The marriage festivities of the khedive's cousin proceed to-night as before arranged.

FRUIT AND SOLDIERS.

What is the best fruit medicine in the world to regulate the bowels, purify the blood, remove costiveness and biliousness, and digestion and stimulate the whole system?

Truth and soundness compels us to answer Hop Bitters, being pure, perfect and harmless. See "Truths" in another column.

CONGRESSIONAL.

Senate.

WASHINGTON, Feb. 4.

The chair announced unfinished business, the land in severalty bill, as the regular order.

Morgan moved to postpone the order until to-morrow; agreed, ayes 31, noes 9.

Edmunds moved to reconsider the vote just taken, but upon being reminded by Eaton that as he had not voted for postponement he was not entitled to make the motion, Edmunds withdrew it.

Morgan moved to proceed with the consideration of his electoral count resolution.

Hoar, Windom, Booth and Conkling opposed the motion as having the effect to displace the pension and appropriation bills, and other important business pending before the senate.

Edmunds moved an amendment to make the resolution read that in the opinion of the senate neither the senate nor house of representatives, nor president of the senate are invested by the constitution with the right to make the electoral count. He thought that as it stood, the resolution being limited merely to the president of the senate, it was but half a declaration, and as there was no law on the subject, and as this was but a simple expression of opinion upon the meaning of the language of the constitution, he preferred to have the whole declaration. He could not agree that the constitution did of itself confer upon congress any such power, any more than he could agree that it warranted the inference that the president of the senate had any such power. The amendment was voted down; ayes 8, noes 28.

Davis, of Illinois, did not vote.

Wyke, remarking that it was always embarrassing to him to differ with his party friends upon questions of political or quasi political character, proceeded to refer to his record on the subject as showing that he had invariably held the opinion that the duty of the president of the senate was a ministerial one. He then referred to and commented upon the action of the first congress in the appointment of John Langdon as presiding officer for the purpose of counting the vote, and its subsequent action as being in support of his own views.

Ingalls said he believed the vice president had a right to count the votes in the sense of computing them, but he had not the right to count in the sense of determining judicially what were lawful votes. If these two propositions could be separated, he would favor the resolution. He moved an amendment in accordance with his views.

Blaine said that he thought the resolution would meet the views of both sides of the question if it would declare who should count or cast the vote. Nobody in the senate was asserting the exercise of the right which the resolution proposed to deny.

Ingalls' amendment was rejected without division.

Morgan and Thurman replied to Blaine, the former stating that the senate had to-day declined to go into the question of who had a right to count or reject the vote, the latter remarking that the senate at its last session had assumed the position upon it on the Morgan rule.

TUESDAY MORNING, FEB. 8, 1881.

CITY.

St. Patrick's Day.—Last evening the regular meeting of the Portland Hibernian Benevolent Society was held. Among other business transacted the subject of observing in the usual manner St. Patrick's Day was considered and discussed. It was resolved by the society to celebrate the day by the customary parade during the day and by a ball in the evening. The following gentlemen were appointed as a committee to confer with the other Irish societies and organizations of the city to solicit their co-operation and participation: Terence Rodgers, J. J. Murphy, R. B. Sinnott. The following gentlemen were appointed to make all necessary arrangements for the ball: W. J. Kelly, T. B. McDevitt, M. Gleeson, John M. Gearin, W. J. Quirk, Frank Gatens, James Wilson, Denis Sullivan, Terence Rodgers, Capt. E. Cahalin, M. Gleeson, John Duffy, M. Tierney, Daniel Magill, P. Moloney. On motion, Mr. Thomas Kearney, the president, was added to the committee.

Very Narrow Escape.—Mr. A. J. Knott had a very close call from drowning Sunday. While the Stark street ferry was crossing the river and was about midstream, Mr. Knott fell overboard. The boat was steaming against the strong current and Knott fell just in front of the forward apron. He was caught by the swift current and carried under the boat in a flash. Capt. Robertson saw the accident and seizing a pike pole ran to the other end of the boat and as Knott came to the surface he hooked the iron into his clothing and held him until assistance arrived. Mr. Knott was dragged up on the deck half drowned. In passing under the boat he struck his temple against some sharp object, cutting a deep gash. It was a very close call for Jackson.

Held to Answer.—Ah Moy Soule, the Chinaman who was arrested here last week charged with having burned the dwelling of Messrs Rodgers & Hemple, which was situated a few miles from Rainier, and also for stealing from the same parties about $1300, had a preliminary hearing before Judge Stott yesterday. The testimony, though purely circumstantial, is said to be very conclusive. Judge Stott held the defendant to answer the charge before the grand jury of Columbia county. As there is no secure place for keeping prisoners in that county, the defendant was committed to the county jail here, where he will be confined until the meeting of the state circuit court at St. Helens.

Committed.—Sheriff Lane, of Coos county, has arrived, having in charge Warren Packard, who attempted to commit suicide some days ago. He is said to have been addicted to the use of chloral hydrate, to relieve himself of sleeplessness. On one occasion he took eleven bullets that he put into his head, none had the effect of bringing the desired quietus, as he "pea-shooter" used did not have much force. He is well known in Eugene City, having resided there several years ago with his uncle, Capt. N. L. Packard. His malady is of a nervous character that it will be extremely difficult to overcome.

Rough on Transgressors.—Those who violate the law under the impression that Judge Stott will let them off with an easy sentence will certainly come to grief. Thus far the judge has given transgressors the full benefit of the law and the smallest admixture of judicial clemency. Saturday the judge sentenced Ah Gam, convicted of larceny, to the penitentiary for the period of four years. On the same day he sentenced Harry Williams, convicted of larceny, for five years. Tuesday a Chinaman, also convicted of larceny, was sentenced for six years.

Miss MacConnell's Lecture.—We call attention to the advertisement of this lecture, on "Home and School Hygiene," to be given to-morrow (Wednesday) evening. Miss MacConnell is teacher of physiology and kindred studies at the Portland high school, and is proficient as an anatomist and student of the laws of health. At the request of many persons the lecture hour is put at seven o'clock, to enable them to attend elsewhere during the same evening. Musical exercises before and after the lecture.

Deserter Recaptured.—G. E. Stokes, the soldier who made his escape from the guard house at Vancouver with the three Indian murderers a short time since, was captured in this city last Saturday morning by Detective Ross. The detective had been on the trail for some time, and was rewarded for his perseverance by coming upon his man on the corner of Third and Oak streets and taking him out of the cold. He escorted the captive to Vancouver yesterday morning.

Navigation Still Suspended.—Telegraph lines being still prostrated beyond the Lower Cascades, the O. R. & N. Co. are without advices concerning the state of the river east of The Dalles. No tickets are sold beyond that point. It is thought that navigation will be resumed between Celilo and Wallula to-morrow, or at the farthest Thursday. On account of washouts in the tracks at both ends, trains can not run to Blalock's or Umatilla for several days.

Carried Away.—Sunday the fender to Pier No. 1 of the Portland bridge, which consisted of a cluster of piles driven closely and firmly together and bound at the top by strong bands of iron, was carried away by the force of drift. A number of trees and logs lodged against the piles, and the force of the current was so great that they yielded. It can not be ascertained whether or not the pier is damaged until the water recedes.

Fire at Soap Creek.—A telegram was received here yesterday, announcing that the store of Samuel Cohen, at Soap Creek, Benton county, a station sixteen miles north of Corvallis was burned Sunday night. The building and contents are a total loss. The amount was not given. Mr. Cohen is insured for $5500 in agencies represented in Albany.

Ordered to Washington.—Capt. M. C. Wilkinson, who has charge of the Indian school at Forest Grove, received a telegram yesterday from Washington, ordering him to report there. He goes there on business connected with Indian matters. Capt. Wilkinson expects to leave on the next steamer. He will probably be absent for five or six weeks.

Steamer "State."—The steamship State of California crossed the Columbia river bar yesterday about 10:30, bound in. She arrived at Astoria at 1 P. M., and sailed for Portland at 3:30. Up to the hour of going to press the steamer had not put in an appearance, though her arrival was expected any time.

Gone to The Dalles.—In the mention of the names of the company, who accompanied Mr. McWade to The Dalles, the name of Master Herman Jahn was omitted. This is the young gentleman who played so acceptably the part of "Pete" in "Rip Van Winkle."

Death of Mrs. Basey.—The widow of Mr. Basey who it will be remembered was murdered on his farm near the Dalles some time last October, died at the Burton House yesterday in this city. The remains will probably be conveyed to the Dalles for interment.

Charity Ball.—New Market Theater has been engaged for a night during the last week in this month, for a charity ball to be given by the ladies in behalf of the orphanage.

Y. P. A.—Regular meeting of the Young People's Association this evening at 7:30 o'clock, in the Baptist church vestry. Strangers and everybody invited and made welcome.

Stated Meeting.—There will be a stated conclave of Oregon Commandery No. 1, Knights Templar, at their asylum, Masonic Temple, this (Tuesday) evening at 7:30 o'clock.

Gone Down.—Yesterday afternoon Veto No. 2, with Capt. Foster at the wheel, left here for the purpose of transferring stock from Sauvie's island to the mainland.

Appointment.—Mr. C. J. McDougall, of this city, has been appointed a commissioner for taking affidavits, depositions, etc., for Washington territory.

THE FLOOD.

The Columbia at a Stand and the Upper Willamette Falling.

From midnight Sunday till noon yesterday the river rose here two inches and remained at a stand until dark. The Columbia at the Lower Cascades fell one inch during the day. The Upper Willamette fell at all points, and was falling last night. The weather throughout the valley was bright and cool, and last night's signal service bulletins indicate continued fair weather to-day.

The O. & C. Railroad will not run trains to-day, but will begin to make through connections to-morrow (Wednesday). At 8 A. M., the ferry boat Veto No. 2, will leave the foot of Stark street with passengers, express, baggage and mails, and proceed to Abernethy creek, a short distance below Oregon City, where a train will be in waiting, which will go through to Roseburg. The down train the same evening will connect with the ferry at the same point, and will land passengers at Stark street. This arrangement will be kept up until the water recedes from Clackamas bottom. Passengers leaving Wednesday morning can depend on getting through to Roseburg that evening.

The company's new iron ferry which was tied up on the east side, is held fast to the pontoon. The action of the water in some way lifted the inner slip of the pontoon, and catching the boat raised her about 18 inches and careened her slightly. She will have to remain in this condition until the water recedes.

THE MASQUERADE.

New Market theater promises to present a brilliant appearance to-morrow evening, on the occasion of the grand carnival which will be held there under the auspices of the Ancient Order of Workmen. Yesterday the sale of reserved seats commenced at D. W. Prentice & Co's, and in a few hours almost every available seat in the dress circle was taken. A great number of seats in the gallery have also been reserved. The floor is being laid over the parquette, and every needed preparation made. While there will be hundreds of spectators, the number of maskers promises to be very large. A number of handsome and original costumes will be worn, many of which have been brought from San Francisco.

The ball will be inaugurated by literary and musical exercises. An appropriate address will be delivered by Hon. J. N. Dolph. Following this will be vocal and instrumental selections, rendered by Miss Belle DuBois, Mrs. Goodsell, W. H. Kinross, A. A. Franklin, Edgar E. Coursen and others. At the conclusion of these exercises the carnival proper will be inaugurated.

All maskers will be required to identify themselves to the committee. There will be no exception to this rule. Maskers will enter the house from the stage entrance on Second street. Good music will be provided. Concert will commence at 7:45 sharp; grand march at 9:30.

BUSINESS NOTICES.

T. J. O'Connor will sell to-morrow at 10 o'clock, by order of court, on First street, next door to Salmon, the remainder of the stock of Chas. E. Harcourt, deceased, consisting of clothing, furnishing goods, notions, and a quantity of household and kitchen furniture.

The entire stock of Franklin Bros. & Co. will be sold by the firm's successor, L. Harmon, regardless of cost, for the next thirty days. The sale includes the entire stock of dry goods, cloaks, dolmans, shawls, blankets, boots and shoes, ladies and gents' furnishing goods, and a full line of black silk cashmeres and mourning goods. Ladies should see the stock before purchasing elsewhere.

Meier & Frank have purchased from the creditors of Thomas Chambers, the entire stock of the Workingmen's clothing store, at 29 First street, near D., in Norton House Block. The purchase price was merely nominal, and as the new owners do not desire to move the goods, they offer them at figures from 25 to 50 per cent below regular retail rates. The stock is first class in every respect, contains no shelf worn nor unseasonable goods, and was selected for the workingmen's trade of Portland. The sale will continue for 15 days, and buyers of clothing and furnishing goods should not neglect this opportunity for bargains.

DR. HARVEY'S LECTURE.

"Shakespeare as a Physician"—At the Congregational Church.

As a Physiologist, as a Pathologist, and as a Psychologist, Scientifically Sketched from his Dramas.

The evening's exercises of the second lecture of the Congregational organ fund course, was opened by an opera selection by Mrs. Dr. O. B. Bird, which was received with a due appreciation of the lady's talents and culture.

Dr. Harvey was born during the early part of this century in London, and is a remote kinsman of the celebrated Dr. Harvey, the discoverer of the circulation of the blood. He was educated in England and chose medicine as his profession, graduating in one of the London medical colleges. For some years he was connected with the British army as surgeon, and in that capacity served in the East Indies and other British colonies. He afterward entered into the merchant marine service as ship's surgeon on the English steamers, and by the travel and observation thus afforded he became eminently fitted to follow the bent of his mind which was science, especially that of medicine. He was for some years connected with the medical college at Keokuk, Iowa, and at present he is lecturer on diseases of women and children in the medical department of Willamette University. Although past the allotted age of man his mind is as clear and active as in middle life. He is a thorough master of Shakespeare and a lover of the poetical, and his judgment of character is of the highest order. The lecturer was introduced by Rev. Mr. Cruzan, and delivered his carefully-prepared and well-considered address in a quick, nervous manner. It was replete with quotations from writings of the bard, which illustrated the positions of the lecturer and showed that the conclusion drawn was well sustained by the argument. The following is a short synopsis of the lecture which was too long to print in full, owing to the crowded condition of our columns:

The lecturer had been requested, he said, to prepare an address for the occasion on some subject connected with his profession, but fearing a purely medical lecture might be uninteresting, he presented one partly literary and partly professional; he would, therefore, speak of "Shakespeare as a physician."

The subject of his sketch was a many sided one with something to be studied and admired on each. From the time in which he lived till now, he has been steadily growing in popular favor, and is now looked upon as the great poet of our language on America as well as England. The word poet, from the Greek and there signifies a maker. There can be but one creator, and Shakespeare's glory that he copied from that one alone; he copies as the best that have been made. To illustrate the versatility of his genius, the lecturer applied the character, the poet and dramatist as drawn of his favorite hero, King Henry the Fifth, to the poet himself, and then went on to examine that side of his character as displayed in his writings, that seemed more especially to pertain to medicine—speaking of him as a physician both of the mind and of the body, and quoting many passages from his plays to show his wonderful knowledge in both departments. Long before Harvey had made known, Shakespeare described the circulation of the blood in the scene in Henry the Sixth, where Warwick alludes to the signs of a violent death in the instance of the duke of Gloster. Previous to that, no writer had spoken of a transfer of the blood from the body to the heart or vice versa. The lecturer carried the subject through minute and interesting details which space will not permit us to reproduce.

In his knowledge of diseases the poet was showed to be as well skilled as he was in that of the leading healthy functions. This was also shown by many appropriate quotations. Consolation on the approach of death was spoken of as belonging to the province of the physician, though many fine things leaning this way are to be met with in Shakespeare. It is a topic on which eloquence must be in vain, as an instinct we feel we cannot be reasoned out of us. Absolute necessity may sometimes reconcile us to the King of Terrors, but we wish him nevertheless, though there may be circumstances under which death becomes desirable, as shown in the play of Romeo and Juliet, and in the instance of Lady Constance, in King John.

In the description of the kind of poison demanded by Romeo of the apothecary, there was a gleam of inspiration; the doctor said, for he knew not what else to call it, that was remarkable for there is no poison capable of producing the effects described but prussic acid, which was not discovered until 200 years after Shakespeare's death.

But it was in diseases of the mind that Shakespeare's knowledge was most conspicuous; here he had no rival. Drunkenness may be looked on as a morbid condition between mental and bodily diseases, and no where, continued the lecturer, is a better account of the pathology of this condition to be met with, for so brief a one, than that given by Lady Macbeth. In deep intoxication, the seat of reason, as she says, becomes a still; for the brain is more saturated with alcohol than any other organ—the stomach excepted—and the liquor literally gets into the head.

Some of the phases of insanity may be almost as well studied in the pages of Shakespeare as in the lunatic asylum. An analysis of the character of Hamlet, the lecturer thought, was intended as one of real insanity, and not assumed, as it is generally supposed. He suffers under great mental trouble, then the special senses become deranged and afterwards the mind. Among the first evidences of the latter is in an interview with Ophelia, his lady love, whom he treats in a manner that nothing but insanity could excuse. Any commission of insanity must pronounce such a case to be one of insanity; he sees apparitions, he talks of suicide, he acts with what he thinks is his father's ghost, acts the madman at Ophelia's funeral and gives the best description of the subjective symptoms of melancholy madness to be met with anywhere, besides showing signs of delusion that could not be assumed.

Somnambulism is a kind of mental derangement in which the patient, for a time, loses the consciousness of his actual existence and the susceptibility to outside influences; and the senses being shut up, he is completely carried away by his deranged imagination. A finer representation of this state can hardly be conceived, the lecturer thought, than that in Macbeth.

In conclusion, it was said, that if Shakespeare had not been the greatest of dramatists, he might, and probably, would have been the greatest of physicians, and from any standpoint the more we examine his productions the more we see to admire in his genius.

BRIEF NOTES.

Very foggy last night.

John J. Owens has arrived.

No mails south on the east side.

Now dramatic season, just at hand.

Reserve your seats for the carnival.

The bone of the storm seems fractured, at last.

Grand jury in the state circuit court is in session.

The Willamette will probably go down with a rush.

The steamship Oregon arrived at San Francisco Sunday afternoon.

The Irish citizens of Portland propose to celebrate St. Patrick's day in grand style.

New Market Theater will doubtless be jammed to overflowing to-morrow evening.

St. Stephen's guild meeting at 8 o'clock this afternoon in the room adjoining the chapel.

Master Seymour Friendly has been elected a member of Multnomah Tender Co. No. 2, at their last meeting.

Monthly meeting of the Portland Cricket and Football Clubs this evening in the St. Andrew's Society rooms at 8 o'clock.

"Why," a pedestrian asked a hackman, "do you drive over this bridge (the Washington street structure) faster than a walk?" "Well," replied the driver, "if the city of Portland calls this a bridge, it is a mighty poor excuse for one," and he drove on without the slightest fear of the law which makes it a penalty for driving fast over any bridge within the corporate limits. As many dozen teams pass over the same bridge in a like manner daily, the drivers evidently are of the same mind as the above.

High Water—Pleasant Weather—Very Little Loss to Stock by Reason of the Cold Winter.

REGULAR CORRESPONDENCE OF THE OREGONIAN.

Heppner, Feb. 3, 1881.

Water has been higher here during the past week than has been known before for many years. Last Tuesday morning the snow was about eight inches deep and by night had nearly all disappeared. Willow creek rose at the rate of eighteen inches per hour until it overflowed the banks and spread all over town. Main street presented the appearance of a small river. The roads have never before been known to be in the condition they are at present. The stage was four days getting from Blalocks, [illegible] forty-five miles from here, to fifteen miles below Heppner, where it mired down and the mail was brought on in a lumber wagon. Have had no mails from Portland in two weeks. Weather very moderate at present and the grass is growing rapidly; the [illegible] is presenting an appearance of spring. Although the winter thus far has been terrible hard on stock, there is but little loss reported. The heaviest loser that has come to our notice is M. H. Hill, having lost about 300 head of sheep. Wm. Penland, who has about 4,000 head, has lost but 300. The loss in cattle through the country is not yet known, but in all probability will be considerable.

NewspaperARCHIVE®

TUESDAY MORNING, FEB. 8, 1881.

THE NORTHWEST.

Washington Territory.

The Sisters' school in Seattle has been closed for a three weeks' vacation.

Seattle's city debt is being extinguished at the rate of about $700 a month.

During January eight vessels carried 10,417 tons of coal from the harbor of Seattle.

A case of varioloid has been discovered in Seattle. The patient was promptly sent to the pest house.

The immense weight of snow has created sad havoc among the woodsheds and outhouses in Goldendale.

Waitsburg has one of the best public schools in the Territory of Washington. One hundred and twenty pupils are enrolled.

Mrs. P. C. Hayes died at her residence on White river last week after a long illness. A husband and six small children survive her.

Mrs. Nancy Miller died at the residence of her son, Capt. S. W. Miller, in Goldendale on the morning of the 4th inst., aged 83 years.

Twin daughters of Mr. and Mrs. J. J. Hicks, of Tacoma, died of scarlet fever in Seattle on Saturday, the 29th ult. Their age was 13 years 1 month and 7 days.

From Ellensburg to Yakima the roads are impassable, there being from four to five feet of snow on the route. There has been no mail between those points for some time.

The Cœur d'Alene Indians have appropriated $1800 toward the erection of a new church at Hangman Mission. But as said sum is not sufficient to complete the church proposed, they intend to call on the whites, their friends and neighbors, to aid them in their work.

The proprietors of the Puget foundry melted 4000 pounds of Port Townsend iron and 1000 pounds of other iron, in order to test the former, and from it made a large number of castings, including mill machinery and one car wheel. The superintendent of the foundry testifies that the ore runs good clear iron and makes strong work.

Recently the Dispatch carried over to San Juan a very fine bell, weighing with mountings 550 pounds, from the celebrated Blymer manufactory of Cincinnati, Ohio. The bell is for the Presbyterian mission. It is a fac simile of the one at Semiahmoo church, the rich tones of which can be heard a distance of from four to five miles.

Dr. G. W. Sutherland, a physician, of Waitsburg, was arrested recently on charge of seduction under promise of marriage, his alleged victim being a young and respectable lady of that place. Upon examination he was placed under bonds of $2500 to await the action of the grand jury. The required bonds being furnished, he was released from custody.

Dayton News: General Hunt, inspector of ties for the O. R. & N. Co., made a visit to the tie camp of Orendolf & Co., located about thirteen miles up the Touchet, in the mountains, recently, and was very much gratified to note the progress that is being made by that company. About twelve thousand ties have already been made, twenty-five hundred of which have been hauled out to the road. The inspector expressed himself as being much pleased with the appearance of the ties, they being manufactured in a creditable and workmanlike manner. In addition to this camp, ties are being received daily along the line of the railroad, for which cash is paid as fast as delivered.

Intelligencer: By a vote of 13 to 3, the members of the Seattle Library Association determined last week to give its collection of books into the care and charge of the regents and president of the Territorial University. The books number 1400, were well selected and are valuable. Added to the 400 volumes belonging to the university and the 300 pamphlets, the great school of the territory will have from this on a collection of about 2000 desirable books, giving it a feature of much interest to students. The regents bind themselves to the association to preserve the books and to return the same when called for. The library will be opened (in its new quarters) not only as heretofore, two evenings of each week for the benefit of members in the town, but will also be kept open at a stated time during the day, for the particular accommodation of the ladies. We regard the new arrangement as generally advantageous and we trust and believe it will prove so.

Idaho.

The Nez Perce News has changed hands, A. F. Parker having assumed control.

The value of precious metals shipped from Idaho territory per Wells, Fargo & Co.'s express during 1880 was $1,694,747.

During the snow storm about the middle of January the snow so completely blockaded the roads leading out of Silver City that it took, upon one occasion, seven men to take the sacks containing the letter mail from Silver City to Reynold's creek.

Boise barracks for the past week has been supplied with water from the wells in the city; the recent heavy rains having had the effect to make the water of the creek unfit for use. Experiments show the creek water to be one-fifth solid earthy matter.

The expressman carrying the mails between Mt. Idaho and Elk City two weeks ago was delayed by a tree falling on him and he was compelled to remain alone for five days with no other shelter than an old shed on the trail. He was finally removed to Newsome creek, where he is well cared for and is doing very well.

Teller: The deputy surveyors, during the past season, have surveyed one fractional township near Lake Waha, nine townships in the vicinity of Camas Prairie, five townships on the headwaters of the Potlach and eleven townships in the vicinity of Upper Spokan Falls. The plats of the above named fractional townships and the nine of Camas Prairie have already been received at this land office, and the others are expected soon. Near Waha lake is a fine stretch of land, known as the Red Bird country, which is now open for settlement and will soon be all taken up.

FINANCE AND COMMERCE.

San Francisco, Feb. 7.—Sterling exchange on London bankers, 60 days, 49¾; do documentary, 50. Transfers, 20@25.

Bank of England rate of interest 3½ per cent.

New York, Feb. 7.—Sterling exchange, prime bankers' long, $4 83; short $4 86; good commercial, from 1@¼c lower; documentary, 2@1½c lower.

U. S. Bonds—5s of '81, 100⅝; 4½s, 112; 4s, 112¾.

London, Feb. 7.—Consols, 98 7-16 money, 98⅞ account.

U. S. Bonds—4½s, 115⅛; 4s, 116.

Monday Evening, Feb. 7.

We cannot learn of a transaction of any importance since the sale at $1 30, reported about ten days ago. The tendency of the market has been downward, and the above rate could not now be secured. With freights at 35 shillings, the present rate, $1 25 would be a fair rate for wheat. Shippers could not afford to pay more; and looking at the matter from their standpoint, $1 20 would be a top figure. There are still no disengaged ships in port. The Ryevale arrived at Astoria yesterday. She is under charter to Rodgers, Meyer & Co., and a cargo awaits her. Private advices from San Francisco agree with news reports of a strong freight market and predict that the situation will not materially change for some months to come. The grangers of California have decided to withdraw their grain from market for an indefinite period. This has been the policy of Oregon farmers for several months past, though to the present time there has been no organized action in that line. The California market, at least so far as prices are concerned, will not be affected by this action.

The San Francisco Produce Market.

San Francisco, Feb. 7.—Wheat stagnant; No. 1 $1 30@1 35; No. 2, $1 25@1 27½.

DR. PAUL M. BRENON

The Most Successful Physician on the Pacific Coast

IN THE TREATMENT OF ALL

CHRONIC AND DIFFICULT DISEASES

DR. BRENON WILL GUARANTEE TO CURE any form of disease of the generative organs or private disease.

He has become an expert in the treatment of diseases, weakness and derangement of the reproductive organs of both the male and female, including diseases arising by the

FOLLIES OF YOUTH,

SPERMATORRHŒA, or SEMINAL WEAKNESS, LOSS OF PERFECT VITALITY. Nearly all of the Chronic Diseases spring either directly or indirectly, from some derangement of the sexual system, and yet this subject is avoided by the majority of the Medical Profession.

Know that persons who are unfortunate enough to be afflicted by any form of sexual disease have a delicacy in calling upon the proper physician in time, from a sense of modesty and sometimes from ignorance, and permit those diseases to exist until their conditions become corrupted, their organism broken down and the hopes of future happiness blighted, until death becomes a welcome messenger to carry them out of their miserable existence.

Everything strictly confidential under all circumstances.

Lost manhood perfectly restored.

Catarrh, Bronchitis, Throat Diseases, Skin Diseases, Rheumatism, Kidney Complaint and all Diseases of the Eye and Ear, Stomach and Bladder he can cure without fail.

Consultation free, and a list of printed questions sent to those living at a distance who cannot consult him personally. Enclose postage stamp for list.

DR. SPINNEY,

No. 11 Kearny Street.

Treats all Chronic and Special Diseases.

YOUNG MEN

WHO MAY BE SUFFERING FROM THE EFfects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to forfeit $500 for every case of Seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE AGED MEN.

There are many at the age of thirty to sixty who are troubled with too frequent evacuations of the bladder, often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and sometimes small particles of albumen will appear, or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 6 to 8. Sundays from 10 to 11 A. M. Consultation free. Thorough examination and advice, $5. Call or address

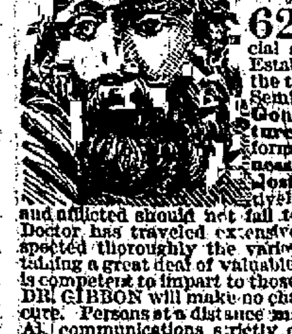
DR. SPINNEY & CO.,

18dtf No. 11 Kearny street, San Francisco.

P. S.—For private diseases of short standing a full course of medicines, sufficient for a cure, with all instructions will be sent to any address on receipt of $10.

[illegible] NOTICE.

DR. GIBBON'S



DISPENSARY,

623 KEARNY ST., corner of Commercial street, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, and Lost Manhood, can positively be cured. The sick and afflicted should not fail to call upon him. The Doctor has traveled extensively in Europe, and inspected thoroughly the various hospitals there, obtaining a great deal of valuable information, which he is competent to impart to those in need of his services. DR. GIBBON will make no charge unless he effects a cure. Persons at a distance may be cured at home. All communications strictly confidential. Send $10 for a package of medicine. You see no one but the Doctor. Persons writing to the Doctor will please state the name of the paper they see this advertisement in. Charges reasonable. Call or write. Address DR. J. F. GIBBON, Box 1,957, San Francisco. jy5dly
